

## BRENDON HURLEY

### SUMMARY

Mr. Hurley is a Corrosion Technician accomplished in conducting basic surveys of cathodic protection systems including troubleshooting rectifier problems, performing soil corrosivity surveys, conducting pipe-to-soil potential surveys and GPS surveys.

### RELEVANT PROJECT EXPERIENCE

#### ***Zone 7 Water Agency, Livermore, CA***

Assisted in maintaining and managing their current corrosion control program through surveying and adjusting their entire system.

#### ***HGST-A Western Digital Company, San Jose, CA***

Assisted in conducting a condition assessment of 24 diesel storage tanks in accordance with SPCC guidance for regional inspectors and in accordance with testing procedures applicable to API-653 guidelines.

#### ***DERWA, CA***

Assisted in the annual survey for induced AC mitigation system for DERWA pipeline - Iron Horse trail, San Ramon.

#### ***Contra Costa County Water District, CA***

Assisted in the annual survey for cathodic protected system for the Multi Purpose Pipeline project.

#### ***Romic Environmental, CA***

Assisted in conducting an ultrasonic thickness survey of 108 hazardous storage tanks at the Romic Environmental facility located in East Palo Alto, CA.

#### ***Central Contra Costa Sanitary District, CA***

Assisted in the annual survey of the district wide cathodic protection system.

#### ***Various Residential & Commercial Projects, CA***

Regularly collected field soil samples and conducted in-situ resistivity testing. Produced Soils Corrosivity Reports based on evaluations of in-situ data and chemical analysis.

### EDUCATION & TRAINING

St. Patrick's College,  
Wellington, New Zealand

Confined Space Trained Entrant

### EXPERIENCE

Corrosion Technician  
**JDH Corrosion Consultants, Inc.**  
Concord, CA  
2008 – Present

Operations Manager  
**CONCECO / MATCOR Engineering, Inc.**  
Concord, CA  
2006 - 2008

### TECHNICAL SOCIETIES

National Association of Corrosion Engineers  
(NACE)
